Social Networks of Entrepreneurs

The following items are coded from a name generator module in the CIEP questionnaire. They record the extent to which different potential roles in R's social and business networks are occupied by the same individuals. For example, if R has only one friend then 1 "Best friend" is coded for all potential roles and positions under the category of "friend" (i.e., vn21a through vn21f). The variables vn32 through vn103c record individual attributes of these individuals who comprise R's (egocentric) network.
